

SUNDAY, SEPTEMBER 2, 1894.

STEWART ON THE SITUATION.

An interesting letter from Senator Stewart appears in the JOURNAL. He shows how the sham battle over the tariff is progressing. The President and many of his followers in the Democratic and Republican parties do not want the tariff question settled, as that would direct attention to the financial question, which is the supreme issue. The people will soon learn that no relief will come from the tariff, and the hope is expressed that they will also learn that their afflictions are due to the demonization of silver.

Senator Stewart explains his position on the tariff question. He says it is a sham battle, and as long as the two old parties can continue it the gold standard will be maintained. He secured a tariff on borax and on lead and labored hard to secure a tariff on wool. Does he deserve the condemnation of the people of Nevada for doing so? That Mr. Bartine should blame him, what ever he might do, is to be expected, but do the people endorse Mr. Bartine? That question they will answer at the polls in November.

Senator Stewart, it should be remembered, is an avowed Populist, and directs attention to the declaration in the Omaha platform that "they (the Democratic-Republican party) propose to drown the outcries of a plundered people with the uproar of a sham battle over the tariff." Shall men who do not endorse any of the principles of the Omaha platform and others who do not endorse the first and principal plank of that platform, namely, the free and unlimited coinage of gold and silver at the ratio of 16 to 1, be permitted, unchallenged, in the State of Nevada to denounce Senator Stewart in the interest of the gold combination?

REOCCUPYING ABANDONED FARMS.

Some years ago when manufacturing flourished in New England thousands of farms, some of which had been cultivated for a century or more, were abandoned in the States of New Hampshire, Vermont, Maine and parts of Massachusetts. Newspapers devoted columns to the subject and some magazines gave illustrations of the abandoned homesteads, some which had comfortable residences and outbuildings in a good state of preservation. The farms were bought in by the States in which they were located for taxes, and an effort was made to induce immigrants from northern Europe to occupy them as the loss in revenue from the depreciation in value was a serious matter.

The abandonment of those farms was attributed to the low price of farm products. The owners were unable to compete in the market with the great States of the West. Farmers could get better wages in the factories and mills than they could make cultivating the soil, so they abandoned the farms and went to work in the factories.

Now, in consequence of the business depression caused by the adoption of the gold standard, many of the factories are closed or running on half time. The people have not the means to buy their products and many who were brought up on farms, now unable to get employment in the factories, are reoccupying the farms abandoned by themselves or others, as the State offers them free to any person who will occupy, cultivate and pay taxes on them. This is the only good effect of hard times in the factory towns. Men can make a living on the farms, which they cannot do in the towns, and a decided increase in the rural population of New England is the result.

LABOR DAY.

To-morrow, September 3d, will be Labor Day. An act of Congress makes it a legal holiday in the District of Columbia and the Territories. As there were doubts in the minds of Federal officials in several of the States as to whether they should observe the day, the heads of Departments at Washington have been consulted on the matter, and state that the day is not to be observed as a holiday by Federal officials unless it is made a holiday by the laws of the State.

Labor Day is a legal holiday in California, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Maine, Massachusetts, Michigan, Montana, Nebraska, New Hampshire, New Jersey, New York, Ohio, Oregon, Pennsylvania, South Dakota, South Carolina, Tennessee, Texas, Virginia, Washington and all the Territories. Federal officials can, therefore, take a rest in those States, while in Nevada they must work as usual, though why Nevada has not followed the example of California and other States is not apparent. Probably it is due to the fact that Nevada is not a manufacturing State.

GOVERNMENT control and supervision of sugar factories has been withdrawn. The Commissioner of Internal Revenue has telegraphed agents in the sugar districts to separate and identify all sugar made at factories from midnight July 1st to midnight of August 27th, 1894, at which time the bounty ceased and the new Tariff Act went into effect.

The Changing is afraid of that far flying which Charley Wallace threatened and is seeking a pretext to train its mind batteries on some other person. The trouble is Wallace knows too much and he is liable, when provoked, to make some of his knowledge public.

CHURCH AND STATE.

A Roman Catholic Bishop Arrested for Contempt of Court—Serious Trouble Feared.

OMAHA, Neb., September 1.—Judge C. R. Scott of the District Court has issued an attachment of the person of Right Rev. Richard Scannel, Bishop of the Roman Catholic Diocese of Omaha, for contempt of court. The action grows out of the removal of the priest of St. Paul's Church by the Bishop. Judge Scott had granted an injunction preventing the Bishop from interfering with the conduct of the church pending a hearing in court. Judge Scott is a strong member of the A. P. A.

At 3 o'clock Bishop Scannel appeared in court. He was not formally under arrest, having been merely notified by the Constable to be present. The contempt proceedings were continued. Judge Scott then ordered the bailiff to secure the keys to the church and open that edifice in order that services may be held to-morrow. The Bishop again refused to surrender the keys to the officer, and the officer was told to open the church if the doors had to be broken down. The Bishop then asked the Chief of Police to send an officer to prevent forcible entry. Thereupon the Judge declared he would have the Chief arrested if he did.

The church will be opened to-morrow. Bloodshed is feared.

A Big Mining Sale in California. SAN FRANCISCO, September 1.—The Seth Cook group of gold mines at Coulterville, Mariposa county, has been sold to a company of Boston and Montana capitalists for \$100,000. The mines have been idle for twenty years. For several years before his death Cook had not worked them owing to lack of good transportation facilities. The purchasers, among whom are Thomas Cook, the millionaire of Butte, Montana, and J. A. Coram of Boston, who, with his associates, own forty-three mining properties at Butte and enormous reduction works on the Missouri river.

The purchasers of the Seth Cook mines intend to expend \$500,000 in their development, erecting a 200 stamp mill and building a railroad. Trouble at a Republican Primaries. SEATTLE, September 1.—In the Republican primaries to-day the judges of election in the First Ward, Charles Webber and John Caldwell, were arrested and charged with false registration. Chief of Police Rogers and five policemen took charge of the polls and refused to allow the new judges elected by the crowd to act. Sheriff Woolley arrested the Chief of Police on a warrant issued by the prosecuting attorney charging obstruction of the polls. The Chief and his men were released on their own recognizance and returned and then charged the crowd and restored the original judges. There is intense excitement.

Will Lecture on Government Control of Railroads, Finance and Improvement.

Prof. T. C. Buddington, the author of several scientific works on Evolution in the city on a geological trip from the northwest toward Utah and Colorado. In addition to his regular scientific lectures, he has been giving addresses on Finance, Irrigation, Land, Labor and kindred topics before the people of Washington, Oregon and California.

Arrangements have been perfected for him to give an address in Reno Monday evening on the true political issues before the American people at the coming election. His address will treat upon the subject of Government control of finances, railroads and improvement of the arid lands, as well as free coinage of silver and the American dollar as the standard dollar of the world. See posters for further particulars as to time and place of address. There will be no charge for admission, so every one interested in the subjects can be free to come.

For Constable.

Jas. E. Stanaway announces himself as a candidate for Constable of Reno Township, subject to the decision of the People's party convention. James Stanaway was for a number of years yardmaster in the Reno yard for the C. P. Co., and during all of this time he had the reputation of being the most accommodating and efficient man that the railroad company ever had in the Reno yard. He now aspires to the office of Constable for Reno Township, and if nominated and elected he will, without doubt, administer the duties of that office carefully and economically and will endeavor to give satisfaction.

Now Try This.

It will cost you nothing and will surely do you good, if you have a cough, cold, or any trouble with throat, chest or lungs. Dr. King's New Discovery for Consumption, coughs and colds is guaranteed to give relief, or money will be paid back. Sufferers from lagrippe found it just the thing and under its use had a speedy and perfect recovery. Try a sample bottle at our expense and learn for yourself just how good a thing it is. Trial bottles free at S. J. Eodgkinson's drug store. Large size 50c. and \$1.00.

Plain Talk.

There is a preservative principle in Soudozod that effectively preserves the teeth from decay. Rich and poor endorse it. No lady ever tried it without approving its cleansing and purifying properties. It outdoes all other dentifrices. Ask for Soudozod and take no substitute.

A new assortment of picture moulding and materials and studies just received by McCullough.

BREVITIES.

Joe Marzen arrived from the west last evening.

A nice quiet place to get a cool and refreshing drink is at H. J. Thyer. * To enjoy sound and vigorous health, purify your blood with Ayer's Sarsaparilla.

Garden hose, lawn mowers, paints and oils at lowest prices at Lange & Schmidt's.

Your cough was occasioned by care less exposure to draft. Cure it at once with Ayer's Cherry Pectoral.

Miss Hattie Bigelow changed cars for San Francisco last night, where she will take a thorough course in vocal music.

Eugene Howell of White Pine and M. S. Bonfield of Winnemucca arrived from the eastern part of the State last night.

Call for Lemps St. Louis bottled beer. All first-class bars keep it. It is a refreshing and healthful drink this hot weather.

The largest assortment of heating stoves, parlor stoves, cook stoves and ranges, crockery and lamps at panic prices at Lange & Schmidt's.

A Salt Lake paper says some of the names on the Republican ticket in Nevada are especially strong. That is a fact—some of them smell strong of monopoly.

Lack of vitality and color matter in the bulbs causes the hair to turn gray and fall out. We recommend Hall's Hair Renewer to prevent baldness and grayness.

Fred Wilson of Elko arrived on last evening's west-bound train, accompanying his daughter and Miss Plumb this far, the young ladies being on the way to San Jose where they will attend school.

Charley Lewers is down from Franktown. He says Sam Cliff has twenty-seven apples in his orchard, and that comprises the apple crop in that section. Grain, however, is better than usual.

Dr. Leonard met with a serious accident near Taylorville. He was out camping and in returning to his tent after dark ran against a limb of a tree, which pierced the eyeball and displaced the lens. Dr. Peo, his physician, gives him little hope of saving the eye.

Madame Bonneville Leak has returned from her summer vacation and desires to inform the public that she will resume her select French class at the corner of Virginia and First streets. Those desiring to join the class are requested to apply at once. As heretofore strict attention will be paid to the pupils.

The Elko Independent of Wednesday says: "A terrific wind storm visited this section last evening. The wind blew at a fearful gait, sending great clouds of dust through the streets and making it very disagreeable for all whose business called them out of doors. It was the wildest night this scribe has ever seen at this season of the year."

District Court.

The motion to strike out plaintiff's cost bill in the case of J. N. Evans vs. the N-C-O. Railway was sustained and the cost bill stricken out.

In the case of the Reno Reduction Works vs. O. Powell et al., demurrer was argued, submitted and overruled. Defendant excepted.

In the case of Annie S. Rhoads vs. A. VanWagner and Z. Z. Sanford, a decree of foreclosure of a chattel mortgage was ordered.

The case of Geo. S. Smith vs. Callaghan et al. was continued until next Saturday.

John E. Brenier was admitted to citizenship.

The Eagle Mine.

Reports of a rich strike in the Eagle mines, five miles north of town, are received. J. A. Scott says they have attained a depth of 161 feet on the ledge. There was from five to nine feet or ore all the way down, but it was low grade. Now at the depth of 160 feet a rich vein of ore has been cut, samples of which assay as high as \$4,000 in gold.

This is the mine which has been supplying the Reduction Works with ore during the summer.

Saved Her Life.

Mrs. C. J. Woodruff, of Wortham, Texas, saved the life of her child by the use of Ayer's Cherry Pectoral. "One of my children had croup. The case was attended by our physician, and was supposed to be well under control. One night I was startled by the child's harsh breathing, and on going to it found it struggling. It had nearly ceased to breathe. Realizing that the child's alarming condition had become possible in spite of the medicines given, I reasoned that such remedies would do no good. Having part of a bottle of Ayer's Cherry Pectoral in the house, I gave the child three doses, at short intervals, and, to my great relief, the child's breathing grew easier, and in a short time she was sleeping quietly and breathing naturally. The child is alive and well to-day, and I do not hesitate to say that Ayer's Cherry Pectoral saved her life."

AYER'S Cherry Pectoral
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
Prompt to act, sure to cure

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance. Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

THE PEOPLE'S PARTY.

Call for Mass Convention to Organize it in the State.

The undersigned demand a State organization of the People's party, and for the purpose of effecting this organization we respectfully invite the Populists of Nevada to meet in mass convention at McKiasick's Opera House, Reno, Nev., on the 6th day of September at 10 o'clock A. M., to there perfect an organization and to nominate a full State ticket of genuine People's party men:

J. H. Segrave, John Sunderland, J. B. McCullough, J. A. H. Loomis, Sol Levy, Benjamin Currier, S. M. Jamison, Geo. E. Peckham, T. N. Bakesless, B. F. Kolo, Wm. Walts, R. S. Osburn, Wm. Henry, John Selz, H. S. Wright, Rosseter Jones, R. V. Borden, S. Jacobs, R. Herz, R. Emrich, W. Sanders, F. M. Toler, R. L. Bush, J. W. Cox, G. E. Higgins, T. L. Holt, G. Teasland, E. A. Morrill, D. A Card to the Public.

Having succeeded to the dental practice of Dr. H. A. Fredrick I take pleasure in placing my card before the public. I am now fully prepared to attend to all classes of dental work, including gold, crown and bridge work, at as low prices as is consistent with first-class operations. Trusting I may be favored in the future with the same generous practice the office has enjoyed in the past I shall endeavor to give thorough work and perfect satisfaction to all.

Very respectfully,

Dr. R. P. CHANDLER.

Rooms 13 and 14, First National Bank building. ag28ml

For County Clerk.

Francis B. Porter announces himself a candidate for County Clerk of Washoe county subject to the decision of the People's party County Convention. Frank Porter, as he is generally known, was for a long time a fireman on the yard engine here, and while working for the S. P. R. R. Co. he had the misfortune to lose a leg. He is fully qualified for the office to which he aspires, and if nominated and elected will without doubt perform the duties to the satisfaction of all.

People's Party Club.

There will be a meeting of the People's Party Club on Monday evening, September 3d, at 8 o'clock P. M.

By order of the Chairman.

O. H. PERRY, First Assistant Secretary.

The Silver Banner.

The magnificent silver banner won by Eureka county at the election two years ago is in Reno. It was brought in by the Eureka delegation and will grace the hall of the Silver Convention at Carson next Tuesday.

To Cleanse the System.

Effectually yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds or fevers use Syrup of Figs.

Houses for Sale.

Two dwelling houses in Powning's Addition, one of eight rooms and one of five rooms, for sale. Inquire of D. M'KISSICK.

BREVITIES.

T. J. Bell of Nye county is in town. L. Dean arrived from the east last night. Thos. Wren arrived from Eureka last evening. W. D. Jones arrived from Austin yesterday afternoon. George S. Smith of Washoe was in town yesterday. Miss Jennie Sherman left for Hawthorne yesterday. J. W. Haynie of Carson was at the Riverside yesterday. The soldier boys returned from Carson on yesterday's local. Mrs. Laves and her three daughters arrived in town yesterday. Prof. O. King returned from California yesterday morning. Miss Rulison was among the departures for California last night. Lem Allen and daughter arrived from Churchill last evening. Miss Hattie Clark of Humboldt is visiting Mrs. W. D. Phillips. The County Commissioners will meet in regular session to-morrow. Mrs. W. M. Havenor and children left for Salt Lake last evening. Miss Nellie Lewers has arrived from Frankton to enter the University. Miss Lillie Swift of Carson changed cars from the west yesterday morning. Mrs. E. D. Kelley and daughter, Miss Raba, returned from Carson last night. H. C. Cutting and Ed. Winfrey were passengers for Carson yesterday morning. V. E. Sharon arrived from Virginia yesterday and registered at the Riverside. Ten bars of Con-Virginia bullion passed through for San Francisco last night. The total assessed valuation of Illinois is \$23,000,000 less this year than it was last. Two dwelling houses in Powning's Addition are offered for sale. See advertisement. Quite a number of visitors to the military encampment at Carson returned last night. The schools will open to-morrow morning. Let the pupils govern themselves accordingly. Miss Maggie Mayberry will leave to-day for Laughton's, where she will take charge of the school. Judge Rives, District Attorney Breen and R. M. Deatty arrived from Eureka county yesterday afternoon. Miss Jennie McFarlin was a departee yesterday for Lovelock, where she has been employed as a teacher. A young woman at Princess Anne, Md., died a few days ago from the effects of swallowing chewing gum. T. J. Osborne and A. S. Thompson of Pioche are here. They are delegates to the State Silver Convention at Carson. C. R. Lewers, a graduate of the State University, left last night for California to attend the Stanford University. In Indianapolis, the other day, so it is reported, August Rye married Miss Wheat. "What shall the harvest be?" Miss Babcock of Oakland, who has been visiting Mrs. W. D. Phillips, returned to her California home last evening. The regular meeting of R. H. B. S. will be held this afternoon at 3 o'clock at the office of Goodwin & Dodge in the Nevada Bank building. Miss Clara Taylor departed yesterday for Big Meadows, near Lovelock, where she will commence a ten month's term of school next Monday. The Misses Annie and Gertrude Martin leave this evening to attend the Stanford University. Miss Annie is a graduate of the State University. The Great East is showing up in force for the State Convention at Carson. A large number of delegates arrived yesterday and last evening. Gus Koppe arrived from Colfax Friday evening. He is here on a short visit. He reports things quiet at Colfax, Nevada City and Grass Valley. The Kansas Board of Pardons recommends the release of convict Rose of Ellsworth, who has served thirteen years of a life sentence for murder which he never committed.

EASTERN NEVADA.

The Desolation Wrought by the Gold Standard Policy—Rich Mines and Deserted Camps.

ELKO, Nev., August 30, 1894.

EDITOR STATE JOURNAL.—In my last communication I left the readers of the JOURNAL at the town of Ely, which is favorably situated at the base and on the east side of the Egan Range at the mouth of Robinson Canyon near the head of Murray Creek, a beautiful stream of clear, cold water of some 500 or 600 inches, which, besides furnishing pure water for the town through which it passes, and for the irrigation of several ranches below it, is further utilized to propel a quartz mill in the southwest part of Ely.

THE ELY GOLD MINES.

Nearly all of the gold mines of the district are situated in Robinson Canyon, about one mile west of Ely. The celebrated Chinaman mine is one of the largest and most important mines in the district. Negotiations are now pending for the sale of this valuable property to some eastern capitalists for \$150,000.

Adjoining on the north of this mine is the Joanna with great outcroppings indicating a vein 100 feet or more wide. These two mines present to the eye massive bodies of gold ore giving assays from \$12 to \$30 per ton, but the major portion of the gold is held impounded in iron to such a degree as to require the most careful and scientific treatment through the best and latest improved machinery and appliances to save from 50 to 60 per cent of the gold. All of the gold mines of this district contain in a more or less degree the same constituents and will require about the same treatment to relieve the gold from its impounded condition.

These two mines may be said to be literally a mountain of ore. It is a random estimate to name the amount of ore in sight, yet I will venture to say that there seems to be not less than 20,000 or 25,000 tons.

The Los Angeles mine is situated about one-fourth of a mile to the west from the Chinaman, has a shaft upon it to the depth of 75 feet, which opens out to view a large vein of fine ore which seems to be less rebellious than the Chinaman or Joanna.

The Robust is a fine prospect on the north side of the canyon upon which a shaft has been sunk to the depth of 62 feet, exposing to view the entire depth a six-foot vein of gold ore assaying about \$12 per ton. I visited over twenty other prospects, all showing gold ore in more or less quantities. The mining formation of this district is principally lime with an occasional zone of quartzite and porphyry, also some little slate here and there. These gold deposits that surround Ely are favorably situated and the necessary facilities for working the same are in superabundance, in the shape of wood for fuel and timbering purposes, also a plenty of water. All that is necessary in addition to the above is capital to further open out these mines aided by the hand of science. With these important factors a bright future would be assured to this district and the sprightly town of Ely making her the business center of White Pine county.

WARD DISTRICT.

Some eighteen or twenty miles further south on the east side of Egan Range is situated Ward Mining District, noted for its large output of silver bullion from 1880 to 1888, aggregating during that period several millions of dollars. At the close of the year of 1888 the rich vein of the Martin White Company was lost by a break of the ledge or a slide of the vein in place. From that period to a few years ago a large amount of well directed prospecting was inaugurated to re-find this rich deposit by sinking deep shafts and running tunnels, one of which was 1500 feet deep, into the bosom of the mountain. With bright prospects of encountering a body of ore in one of the tunnels, the work was closed in consequence of the heavy drop in silver.

DESOLATION WROUGHT BY GOLDBUGS.

There are now a large number of ledges that contain pay ore. To-day the large and fine wall of the Martin White Company would be in active operation and the whistles of the steam mill and smelting works would again be heard to echo and re-echo among the lofty peaks of the Egan Range had not silver been demonetized. Here the beholder will see fully the wreck and ruin that the Wall Street policy of Sherman, Reed, Cleveland, Carlisle & Co. have wrought by the destruction of at least \$100,000 worth of property in this district, consisting of a large, 20-stamp mill; also an extensive smelting furnace and leaching works, with a finely equipped machine shop for the repairs of the mill and hoisting works and other machinery used for mining and the reduction of the ores. These prospects, together with a mining town which contained some four years ago a population of 1500 persons, are now changed to silent desolation with only one solitary individual to inhabit the place that was once a busy scene of industry and prosperity.

If this spectacle of the destruction of values and the crushing of the hopes of the toiling miner, business man and the mechanic would not move the heart of the beholder, to sorrow and regret, his heart must be made of brown stone taken from the splendid, palatial residences of the goldbugs of Wall street, who have robbed the delving miner, the industrious farmer and mechanic and all other callings that make up the great industrial interests of our people. There were annually employed from 1887 to 1888, 300 men as miners, mechanics, teamsters, wood

cutters and laborers.

TAYLOR MINING DISTRICT.

Right directly across the Steptoe Valley on the west side of Shell Creek Range, some ten miles from Ward, is situated Taylor Mining District. Here again is a repetition of the same condition brought about by similar causes—notwithstanding the low price of silver, in consequence of rich ore, the work of mining was continued until two years ago when the insane policy of the Administration, with its Republican aiders, caused the suspension of all mining work. The population of Taylor to-day consists of one family, while three years ago it was not less than 2,000 persons and the mines and mills gave employment to over 300 men and heavy shipments of bullion were made weekly. Hotels and business houses have been left by the owners some with their furniture still in them. Before the closing of these mines and mills a good cash market was afforded for the produce of the farms and gardens of Steptoe and Spring Valleys. There is to-day some 8,000 or 9,000 tons of second-class ore averaging from \$25 to \$35 per ton, besides a large quantity of first-class ore on the dumps of the Monitor and Argus system of mines that could not be milled with profit at the present prevailing low price of silver. The two large quartz mills, which are well equipped with every thing necessary, together with the hoisting works, have doubtless cost over \$500,000 and are now fast disappearing. At the time of suspension of work in the Argus mine there was then in sight several hundred tons of first-class ore ready to be knocked down and worked as soon as silver shall again reach 90 cents per ounce with a reasonable prospect that it will not drop below 80 cents per ounce mining at this place will revive and be continued. But if ever relief does come it will be through some other channel than through either of the two old parties. Let no true friend of Nevada's interests be lured from his path of duty in this hour of peril by false promises or deceptive platforms of either of the old organizations. Stand firm by the Silver party and all other organizations that emblazon upon their banner free and unlimited coinage of silver at the ratio of 16 to 1 receivable for all debts, dues and demands, both private and public.

My next letter will relate to the rich gold diggings of Osceola and the rich agricultural productions of Spring and Snake Valleys.

JOHN S. MAYNUGH.

A SHAM BATTLE.

Senator Stewart on the Tariff and Silver Questions.

UNITED STATES SENATE, WASHINGTON, D. C., AUG. 13, 1894.
TO THE EDITOR OF THE STATE JOURNAL:—I observe in this morning's dispatches a resolution of the Nevada attachment of the eastern gold party, styling itself a Republican convention, denouncing my course in not aiding the Cleveland-Republican combination to defeat the tariff bill. The gold men care nothing for the tariff as an economic measure, but have used it, and desire to use it as an issue to suppress the silver question.

A SHAM BATTLE.

As long as the two old parties can continue the sham battle over the tariff, the gold standard will be maintained. Nevada is not a manufacturing State and has no special interest in the tariff other than such as pertains to the interior of the great West. I did secure a tariff on borax, which is a Nevada interest, and aided to secure a small tariff on lead in which Nevada is also interested. This I could not have done had I aided Mr. Cleveland in defeating the Senate bill. I labored hard to secure a tariff on wool, but could not effect it.

The question then presented was, a tariff fight throughout the United States to the exclusion of the silver question, or the passage of the Senate bill. If no tariff bill had been passed the excitement in the country over that question would have attracted the attention of the people, and silver would have been lost sight of. The tariff has been an issue for more than a hundred years, and if Nevada must wait until the tariff is finally settled before the silver issue can be considered, the silver fight is ended.

THE TARIFF WILL AFFORD NO RELIEF.

The Democratic party have now passed the Tariff bill, and they will soon learn that no relief will come, and it is hoped they will also learn that their afflictions are due to the demonetization of silver. The eastern Republicans and the Cleveland democracy justly regard the tariff issue as the most important weapon against silver, and their policy was the defeat of the Senate bill, to be followed by a hot canvass over the tariff. They have failed, and the great mass of voters who have been taught to look to the tariff for relief will find that no change in the tariff laws can save the United States and Europe from the inevitable ruin which always follows continued contraction and falling prices.

NEVADA REPUBLICANS AND THE SILVER QUESTION.

The fact that the so-called Republican convention of Nevada gave such prominence to the tariff question is conclusive proof, if proof were necessary, that they desire to bury the silver issue which they pretend to favor. Nevada, California and Idaho, so far as heard from, are the only Republican conventions which have declared for the free coinage of silver without words of duplicity or equivocation. Nevada, while doing so, repudiates the silver cause by making the tariff the paramount issue. The candidate for Gov-

ernor on the Republican ticket in California in his published speeches, relegates the silver question to the rear, and holds up the tariff as the panacea for all the ills we suffer. Idaho also loads down silver with a high protective tariff plank.

The silver States have for many years enabled the East to maintain a protective tariff, and have been rewarded by the almost unanimous vote of the North and the East for the demonetization of silver. If the silver States had been a unit for silver as the paramount issue for the last ten years, neither of the old parties could have carried out any policy unless they would consent to the remonetization of silver. With all this bitter experience before them, the so-called Republican convention of Nevada demands of her Representatives in Congress to subordinate the silver question and aid their enemies to obtain all they want without demanding some recognition of the rights of the people on the paramount issue—the remonetization of silver.

PERNICIOUS GOLDBUGS.

The man in Nevada who talks tariff while the gold combination is enacting the country, is a goldbug of the most pernicious type. Neither the Omaha platform nor the platform of the Silver party of Nevada made the tariff an issue. On the contrary, the Silver party of Nevada declared that "too much time has already been lost in voting for the agents of the gold trust, which action has paralyzed the industries of the country and ruined silver mining in Nevada. The endorsement already given by the silver States of the advocates of gold in former elections is used as an argument to show that the silver States themselves are opposed to the free and unlimited coinage of silver."

The Omaha platform two years ago declared that "they (the Demo-Republican party) proposes to drown the outcries of a plundered people with the uproar of a sham battle over the tariff."

The Nevada Republicans are sounding the old song. The anxiety of the agents of the gold trust in Nevada, as manifested in their platform in making the tariff the paramount issue, shows their hostility to the paramount interest of our State and their fidelity to the teachings of the *New York Tribune* and the other organs of the alien gold combination.

The business world, including the telegraph, the commercial press, and the railroads are hypothesized to the banking trust of Europe and the United States. Gold monopoly determines the policy and controls the operation of all other monopolies. The free and unlimited coinage of silver at the ratio of 16 to 1 in the United States would break the corner on money and return the control of business and enterprise to the people.

ONE ISSUE AT A TIME.

Only one great issue can be settled at a time. The multiplication of issues is a division of strength. The united power of the people is required to meet and overthrow the combined forces of the money power. The financial question was the only issue in Nevada two years ago. On that issue four-fifths of the people are united. My course in the Senate was guided by the sole purpose of removing the tariff issue and bringing to the front the silver issue. The tariff question is settled, so far as the Democratic masses are concerned, by the passage of a Democratic tariff bill. The Democratic masses compose two-thirds of the advocates of silver at the ratio of 16 to 1. They will not rally to the standard of free and unlimited coinage of silver at the ratio of 16 to 1 as the only remedy for the afflictions they suffer.

Neither free trade nor protection can be coupled with bimetalism, because more than one-half of the advocates of free coinage are against protection, and a large portion of the advocates of free coinage are against free trade. The platform which couples either free trade or protection with the free coinage of silver divides the opposition to gold monopoly. Why should an advocate of free and unlimited coinage be compelled to subscribe to either free trade or protection if he is willing to join the free coinage forces and fight for liberty and equal rights?

Yours very truly,
WM. M. STEWART.

Church Notices.

Baptist Church.—There will be no services at the Baptist Church to-day, as the building is being repaired. Next Sunday, September 9th, services will be resumed.

Unity Congregation.—Library Hall—Services at 11 A. M. and 7:30 P. M. Morning subject, "The Religious Importance of Modern Scientific Thought." Evening, "The Nineteenth-Century Jesus." Sunday School at 12 M. All are cordially invited.

Methodist Episcopal Church.—Rev. J. H. N. Williams will preach morning and evening. Epworth League meets at 6:15 P. M. All are cordially invited. Congregational Church.—Services will be held to-day at 11 A. M. and 7:30 P. M. The Lord's Supper will be celebrated at the morning hour. Meeting of the Y. P. S. C. E. at 6:15 P. M. All invited. T. Magill, Pastor.

Buckley's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by S. J. Hodgkinson.

Take your prescriptions to McCallough's non-commission drug store where you will get pure drugs at prices to suit the times.

ENGLISH MOUNTAIN MINES.

Abundance of Ore and One Hundred Men at Work.

Thomas Barton returned last evening from a visit to the English Mountain mines, nine miles from Webber Lake. He says it is the liveliest camp he has seen for some time. Colorado men are operating the mines and Colonel Tetter of that State is superintending them. The ore is principally gold and there is an abundance in sight. There are about 100 men at work, and a twenty stamp mill is being erected near the banks on Jackson Lake. A tramway is being built from the mine to the mill and it is expected that the mill will start up early in October.

Mr. Barton also visited Meadow Lake, but there are only a few men in camp and not much doing. He thinks there are millions in the district for anybody who can devise some cheap method of reducing the ores, which are very rebellious.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg and doctors said he was incurable. One bottle of Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at S. J. Hodgkinson's drug store.

Candidate for Sheriff.

Under the head of political announcements to-day will be found that of Wm. Caughlin, the present incumbent in the Sheriff's office. He is again a candidate to succeed himself, subject to the decision of the Republican Convention. Everybody knows Bill Caughlin, he has been identified with Reno ever since the town was known by its name. For four years he has served the county as Sheriff, and his administration of the affairs of the office is an open book to the public. If nominated and elected he will no doubt do as well as he has done in the past, and is a courageous and efficient officer.

To the People of Reno.

I have lived in your midst for twenty-three years. No person can say I have knowingly misrepresented facts, neither do I misrepresent regarding Viavi. Husbands and fathers would have happier homes if the mothers and daughters were well. Come and make inquiry. I can show you hundreds of personal letters from those who have been cured, and my own renewed health will prove it also.

VIAMI CO.

MRS. B. E. HUNTER, Fourth St.

Reduced Rates.

Preparing for the Emergency.
"No," said Florentine, "I do not shall never call on that editor again, never, never!"

"What has he done?"
"He has been rudely sarcastic handed him a bundle of manuscript morning, and he told the editor to hunt up his overcoats."

"Overcoats?"

"Yes," he said he had a lot of slush made through."—Washington Star.

"Er man kin run 'inter debt," said Uncle Eben, "but when it comes a pitten into his gatter crawl."—Washington Star.

There is a brisk competition between Senator Proctor of Vermont and Senator Cullom of Illinois as to which of the two looks the more like Lincoln. For years the Illinois man has proudly claimed the distinction of most resembling the great martyred president of any one in Washington, and there has been none to dispute. But since Senator Proctor has shaved off his flowing beard there are a new set of Lincoln features in the senate chamber. The Vermont man is taller and his smooth face has a very marked Lincoln look, so much so that Cullom is in danger of losing his laurels. A poll of the senate may be necessary before the question is solved.—Washington Correspondent.

A German View of Us.
The Berlin National Zeitung last week published a curious leader on American affairs. The writer's conclusion was that the Anglo-Saxon and German races were losing their determining influence on the Union's affairs. The influx of Catholic Irish and Italians as well as other Latin elements, he thought, would in no very distant date lead to the crisis—fanned now by some American politicians—in which the Union would be divided into three republics—one on the Pacific, another on the Atlantic and the third on the gulf of Mexico.

Told Family Secrets.
Bjornson, the famous Norwegian author and politician, recently published a book, "New Stories," which has subjected him to much criticism. One of the stories is entitled "Absalom's Hair" and gives to the public, it is said, the secrets of a family whose name is known to all Norway. The poet has been condemned by many people, but the book is being read by every one.

BALD HEADS!

What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it full of dandruff? Does your scalp itch? Is it dry or in a heated condition? If these are some of your symptoms be warned in time or you will become bald.

Skookum Root Hair Grower
is what you need. Its production is not an accident, but the result of scientific research. Knowledge of the causes of the hair and scalp led to the discovery of how to treat them. "Skookum" contains neither minerals nor oils. It is a pure, but absolutely cooling and refreshing tonic. By stimulating the follicles, it stops falling hair, cures dandruff and grows hair on bald heads.

Keep the scalp clean, healthy, and free from irritating eruptions by the use of "Skookum." It is a pure, but absolutely cooling and refreshing tonic. By stimulating the follicles, it stops falling hair, cures dandruff and grows hair on bald heads.
